Journal of Biotechnology, 12 (1989) 339–342
Elsevier

Contents of Volume 12

No. 1

Minireview
H. Uchimiya, T. Handa and D.S. Brar (Japan, Philippines)
Transgenic plants 1

Research Articles
S. Jayakumar and H.C. Lim (U.S.A.)
Multiple steady states of *Methylomonas mucosa* for continuous production of polysaccharides 21

C.N. Mulligan, G. Mahmourides and B.F. Gibbs (Canada)
Biosurfactant production by a chloramphenicol tolerant strain of *Pseudomonas aeruginosa* 37

S.K.W. Oh, A.W. Nienow, M. Al-Rubeai and A.N. Emery (U.K.)
The effects of agitation intensity with and without continuous sparging on the growth and antibody production of hybridoma cells 45

N. Misawa and K. Nakamura (Japan)
Nucleotide sequence of the 2.7 kb plasmid of *Zymomonas mobilis* ATCC10988 63

D. Porro, E. Martegani and B.M. Ranzi (Italy)
Growth phase modulation of the productivity of α-galactosidase in budding yeast cultures 71

A. Al-Zaag (Iraq)
Molecular cloning of cellobiose and other β-glucosidase determinants from *Klebsiella oxytoca* 79

Book Reviews 87

Books Received 90

Announcements 93

No. 2

Minireview
M. Butler and H. Jenkins (U.K.)
Nutritional aspects of the growth of animal cells in culture 97

Research Articles
H. Dellweg, M. Rizzi and C. Klein (F.R.G.)
Controlled limited aeration and metabolic regulation during the production of ethanol from D-xylose by *Pichia stipitis* 111

0168-1656/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

I. Labudova, D. Czajkowska, M. Hayn, W. Steiner and H. Esterbauer (Austria, Poland)
Investigations on the physiology, mutagenesis and cellulase production of *Gliocladium virens* 123

A. Sadana, R.R. Raju and E. Shahin (U.S.A.)
A stability index for enzyme deactivations 135

B. Riesmeier, K.H. Kroner and M.-R. Kula (F.R.G.)
Tangential filtration of microbial suspensions: filtration resistances and model development 153

W.A.M. Van den Berg, J.P.W.G. Stokkermans and W.M.A.M. Van Dongen (The Netherlands)
Development of a plasmid transfer system for the anaerobic sulphate reducer, *Desulfovibrio vulgaris* 173

Nos. 3,4

Minireview
S. Fraleigh, H. Bungay and A. Fiechter (U.S.A., Switzerland)
Regulation of oxidoreductive yeast metabolism by extracellular factors 185

Research Articles
C.N. Mulligan, G. Mahmourides and B.F. Gibbs (Canada)
The influence of phosphate metabolism on biosurfactant production by *Pseudomonas aeruginosa* 199

D.N. Shah, K.S. Sriprakash and B.B. Chattoo (India)
Protoplast fusion between the cells of like mating type in a citric acid-producing strain of *Yarrowia lipolytica* 211

Y. Ohgami, M. Nagase, S. Nabeshima, M. Fukui and H. Nakazawa (Japan)
Characterization of recombinant DNA-derived human granulocyte macrophage colony stimulating factor by fast atom bombardment mass spectrometry 219

S. Calero, E. Gari, I. Gibert and J. Barbé (Spain)
Expression of the meta-cleavage pathway operon of the TOL plasmid of *Pseudomonas putida* in the phototrophic bacterium *Rhodobacter sphaeroides* 231

R.J. Kirschner, N.T. Hatzenbuhler, M.W. Moseley and C.-S.C. Tomich (U.S.A.)
Gene synthesis, *E. coli* expression and purification of the bovine growth hormone releasing factor analog, (Leu^{27},Hse^{45})bGRF 247

C.W. Greer, D. Beaumier and R. Samson (Canada)
Application of on-line sensors during growth of the dichloroethane degrading bacterium, *Xanthobacter autotrophicus* 261

H. Hellebust, M. Uhlén and S.-O. Enfors (Sweden)
Effect of protein fusion on the stability of proteolytically sensitive sites in recombinant DNA proteins 275

J.-M. Nicaud, E. Fabre, J.M. Beckerich, P. Fournier and C. Gaillardin (France)
Cloning, sequencing and amplification of the alkaline extracellular protease (*XPR2*) gene of the yeast *Yarrowia lipolytica* 285

M.-C. Brahimi-Horn, M.L. Guglielmino and L.G. Sparrow (Australia)
Wax esterase activity in a commercially available source of lipase from *Candida cylindracea* 299

H. Endo, K. Sode, K. Ogura, K. Ohya and I. Karube (Japan)
Determination of microbial concentration with a piezoelectric gum sensor 307

Y. Nomura, M. Iwahara and M. Hongo (Japan)
Continuous production of acetic acid by electrodialysis bioprocess with a computerized control of fed batch culture 317

Short Communication
A. Sadana and R.R. Raju (U.S.A.)
Stability index for enzymes deactivating by different mechanisms 327

Announcement 337
